

Big Mac Slabs Furniture

DURABLE FURNITURE WITH A DIFFERENCE

Big Mac Slabs Furniture and Mountain Fresh have been supplying public spaces with furniture for some time and it has proven itself to stand up to the job.

Our timber products are generally coated with Elastocure, which is a U.V. resistant, water based, elastomeric membrane that stretches with the timber rather than cracking or peeling like traditional timber coatings do. If vandalism does occur – the area can be sanded & touched up rather than having to do a complete recoat.

Colour, style and size can be selected or designed to meet the specific project requirements.

Our Metal products are stainless steel or galvanised & powder coated to withstand the harsh NZ elements and can also come with shrouds if vandalism is an issue.

Dog Bowl Fountain

Price: \$2130 + \$90delivery + GST
Optional Shrouds: \$100 + GST per Shroud

Unit includes: Push Tap, Dog Bowl, maintenance tap, Bubbler on top & filter. This unit can be concreted into the ground or bolted down on a plate. The bowl is on a pivot so it can be flicked over with your foot & emptied.
